

# HEAVY DUTY™ HIGH PRESSURE SODIUM

- PREMIUM QUALITY
- HIGH EFFICIENCY
- **44,000 UHrs** SINGLE ARC TUBE

**CERAMIC ARC TUBE** - Polycrystalline alumina resists sodium attack and high temperatures.

**PURE FILL GASES** - Special mixture of xenon, sodium and mercury.

**SOLID TUNGSTEN ELECTRODES** - For reliable starting and long life.

**NICKEL PLATED STEEL SUPPORTS** - Resist shock and vibration.

**HARDENED GLASS ENVELOPE** - Prevents against breakage, even outdoors.

**NICKEL/BRASS BASE** - Positive electrical contact and resists corrosion.

**OPTIONAL - DOUBLE ARC TUBE**

- **INSTANT RESTART** - Increases safety by eliminating 5 minute cool down.
- **73,000 UHrs** - Two arc tubes alternate resulting in longer life.
